The Methodological Note summarizes the disclosure recognition methodologies and business decisions as well as country specific considerations applied by Alcon Switzerland SA in order to identify, collect and report ToVs for each disclosure category as described in Section 3.01 of the EFPIA Disclosure Code.

These disclosure recognition methodologies and business decisions include but are not limited to:

- Handling of ToV dates for direct or indirect ToVs (Chapter 5.2)
- Treatment of cross-border ToVs (Chapter 5.3)

3. Novartis' Commitment and Responsibility for Disclosure

Novartis supports laws and regulations that promote transparency around relationships between healthcare companies and HCPs/HCOs associated with ToVs related to prescription-only medicines, OTC medicines, medical devices and food supplements.

Novartis establishes a single, consistent transparency standard for disclosing ToVs in all EFPIA countries.

4. Scope of the Novartis' Disclosure on Transfers of Value

This Alcon Switzerland SA report is following the disclosure standards pursuant to the EFPIA Disclosure Code and Swiss Pharma-Kooperations-Kodex. Subject to this disclosure report are all direct or indirect ToVs related to prescription-only medicines, OTC medicines, medical devices and food supplements disclosed by Alcon Switzerland SA to or for the benefit of a Recipient made by any Novartis affiliate as described in Article 3 of the EFPIA Disclosure Code. Further details on the disclosure scope will be provided in Chapter 4 of this document.

The legal definition of 'prescription-only medicine' is pursuant to art. 23 ss Federal Act on Medicinal Products and Medical Devices (Therapeutic Products Act, TPA), ToVs related to a group of products that includes prescription-only medicines (e.g. combination products/diagnostics and medicinal products) are reported in total following the disclosure requirements of the EFPIA Disclosure Code.

In summary, this Alcon Switzerland SA report covers direct and indirect ToVs, payments, in kind or otherwise, made to HCPs/HCOs in connection with the development and sale of prescription-only medicinal products, OTC medicines, medical devices and food supplements exclusively for human use, whether for promotional purposes or otherwise.

Excluded from disclosure are items such as items of medical utility (governed by Article 9 of the EFPIA HCP Code), meals and drinks (governed by Article 10, especially Section 10.05 of the EFPIA HCP Code), medical samples (governed by Article 16 of the HCP Code).

In this report, Alcon Switzerland SA discloses the amounts of value transferred by type of ToVs with data coverage from January 1st 2015/ to Dec 31st 2015 for the Alcon Pharma Business. Alcon Switzerland SA's disclosure is performed for the full calendar year 2015 once a year, generally end of June, for the first time in June 2016. The Alcon Surgical and Vision Care Business are out of scope of the data collection in 2015 and disclosure in 2016. Based on an ECN decision, data and consent collection for these two Business Units starts in 2016 and will be disclosed for the first time in 2017.

Whenever possible, Alcon Switzerland SA follows the principle of disclosure on individual HCP/HCO level, to ensure that each Recipient is referred to in such a way that there is no doubt as to the identity of the HCP/HCO benefitting from the ToVs. Aggregate disclosure for non Research and Development ToVs is only used in exceptional cases, e.g. if consent could not be obtained despite best efforts or in case of withdrawal of consent.

5. Novartis' Disclosure Recognition Methodology and Related Business Decisions

This chapter represents the central pillar of this Methodological Note. It provides comprehensive information on the terminology definitions, recognition methodology and

business decisions that affected how the published ToVs data was established for each category of the disclosure report.

5.1 Definition of Healthcare Professionals (HCP)/Healthcare Organizations (HCO)

Alcon Switzerland SA applies the definition of the HCP/HCO as outlined in the EFPIA Disclosure Code Schedule 1 (Scope - § 4) - pursuant to the sections 133, 134 of the Swiss Pharma-Kooperations-Kodex.

Alcon Switzerland SA has developed HCP/HCO unique identifiers to ensure that the identity of the HCP/HCO benefitting from the ToVs is clearly distinguishable for each Novartis affiliate.

In accordance with EFPIA Disclosure Code Schedule 1 and section 139 of the Swiss Pharma-Kooperations-Kodex, ToVs to an HCP/HCO are disclosed in the country where the Recipient's primary practice is located, independent of whether the ToVs occurred inside or outside that country. The physical address where the HCP has his primary practice or the principal address of an HCO is used as the deciding factor when determining in which country the data should be disclosed.

5.2 Definition of Direct and Indirect Transfer of Values

Alcon Switzerland SA applies the EFPIA definition of ToVs as outlined in EFPIA Disclosure Code schedule 1.01 - pursuant to the sections 137 of the Swiss Pharma-Kooperations-Kodex.

According to the EFPIA Disclosure Code schedule 1, the following definitions apply throughout this report:

- Direct ToVs are defined as those ToVs, payments or in kind, made directly by the Novartis affiliate to the benefitting HCPs/HCOs.
- Indirect ToVs are defined as those ToVs made through an intermediary (third party) on behalf of a Novartis affiliate for the benefit of HCP/HCO where the Novartis affiliate knows or can identify the HCP/HCO that benefits from the ToVs.

In general, ToVs are reported at the level of the first identifiable Recipient which falls under the EFPIA definition of an HCP/HCO. To the extent possible, disclosure is made under the name of the individual HCP or at the HCO level, as long as this could be achieved with accuracy, consistency and compliance with the EFPIA Disclosure Code and pursuant to the sections 271 ss of the Swiss Pharma-Kooperations-Kodex. Where a ToV was made to an individual HCP rendering services on behalf of an HCO indirectly via this HCO, such ToVs are only disclosed once on either Recipient level.

5.3 Definition of Cross-border Transfer of Values

Alcon Switzerland SA applies the EFPIA definition of cross-border ToVs as being a Transfer of Value to an HCP/HCO that **occurred outside** the country where the Recipient

has its primary practice, principal professional address or place of incorporation provided that this country is an EFPIA regulated country.

In general, such ToVs are disclosed in the country where the Recipient has its principal practice, principal professional address or place of incorporation - pursuant to the section 139 of the Swiss Pharma-Kooperations-Kodex.

5.4 Transfer of Value Categories According to the EFPIA Disclosure

Alcon Switzerland SA applies the EFPIA definition of the ToVs categories as outlined in EFPIA Disclosure Code Article 3.01 - pursuant to the sections 271 ss of the Swiss Pharma-Kooperations-Kodex.

The following categories constitute the EFPIA Disclosure Template for the 2016 Alcon Switzerland SA EFPIA/Swiss Pharma-Kooperations-Kodex Disclosure Report:

The total amount of registration fees paid in a given year to a HCO should be disclosed on an individual basis (in the name of the HCO) under “Contribution to Costs of Events”. Alcon Switzerland SA applies the EFPIA definition of the “Travel and Accommodation” related to cost of events categories - pursuant to the section 274.2 of the Swiss Pharma-Kooperations-Kodex.

ToVs covered under the “Travel and Accommodation” category include costs of transportation (e.g. flights, trains, buses, taxis, etc., car hire tolls, parking fees) and accommodation (e.g. hotel, apartment, etc.).

If the mass transportation is shared by a group of HCPs who have their primary practice in different countries, the ToVs are disclosed in aggregate with the total cost divided equally among the planned number of benefitting HCPs per country.

In case the benefitting HCP partly bears the costs related to travel and accommodation Swiss Medic Journal 1/2006 p. 20 ff., the net amount of the Alcon Switzerland SA payment offset by payment from HCP is disclosed as ToV under the “Travel and Accommodation” category in the name of the HCP.

5.4.3 Transfer of Values Related to Contribution to Fees for Service and Consultancy

5.4.3.1 Transfer of Values related to Contribution to Fees for Service and Consultancy – Fees

Alcon Switzerland SA applies the EFPIA definition of the “Fees for Service and Consultancy” category as outlined in EFPIA Disclosure Code Article 3.01 - pursuant to the the section 274.3 of the Swiss Pharma-Kooperations-Kodex.

ToVs covered under the “Fees for Service and Consultancy” category, whether made directly or through a third party to an HCP/HCO, include but are not limited to services performed in connection with third-party congresses, speakers’ fees, medical writing, data analysis, development of education material, e.g. on Alcon Switzerland SA products or research, general consulting/advising, services by distributors, consultancy for tool/questionnaire selection or analysis.

Alcon Switzerland SA has formalized such collaboration in a contract describing the purpose of ToVs. In general, the ToVs received by the contracting entity – which may be an HCP, a legal entity owned by an HCP (considered an HCO under the EPFIA

Disclosure Code) or an HCO – are disclosed under the “Fees for Service and Consultancy” category in the name of that contracting entity.

As mentioned in Chapter 5.4.2.1, ToVs made through a PCO as intermediary (e.g. for the hire of booths or stand space on behalf of an HCO), are disclosed as ToVs either in the “Sponsorship Agreements” category or as “Fees for Services and Consultancy” depending on the nature of the spend, in the name of the sponsored HCO as benefitting. ToVs related to market research studies for which the identity of the Recipient was known to Alcon Switzerland SA, are disclosed under the “Fees for Service and Consultancy” category. 6. Measures Taken to Ensure Compliance with Data Privacy Requirements

This chapter describes measures taken by Alcon Switzerland SA to ensure compliance with data privacy regulations, rules on consent collection and managing of relevant information in compliance with relevant internal rules, data privacy laws and regulations.

6.1 Safeguarding Measures to Address Lawful Collection, Processing and Transfer of HCPs’ Personal Data

Data privacy refers to the individual’s fundamental right to control the use of, access to and disclosure of information that describes or identifies the individual (“personal Information”). To fulfil the transparency disclosure requirements, it is necessary to collect, process and disclose such personal data within and outside of Alcon Switzerland SA. This data will be published for 3 years in public domain and stored for a minimum of 10 years on record by the Alcon Switzerland SA (publishing affiliate). The disclosure of such personal information by Alcon Switzerland SA is at all times limited to the intended purposes.

In case personal data had to be transferred from countries to the central Novartis Transparency data repository manually (e.g. excel) or via interfaces, applicable local regulations for the transfer were assessed at local level and managed accordingly. Where required, the transfer of data to a third country (outside the EU/EEA) was approved by the data controller’s Alcon Switzerland SA country data protection authority (e.g. Information Commissioner).

6.2 Consent Collection

During the the time period for January 1, 2015 until December 31, 2015, data and consent collection took only place with respect to Alcon Switzerland SA's Business Unit Pharma based on a ECN decision. Data and consent collection with respect to Alcon Switzerland SA's Business Units Surgical and Vision Care will take place for the first time during the time period from January 1, 2016 until December 31, 2016, disclosure will take place for these two Business Units for the first time during 2017.

Consent for the publication of the ToVs was obtained and documented as such before disclosing the data on an individual HCP/HCO level where applicable. Consent management procedures were conducted in alignment with the Swiss data protection legislation.

Consent was obtained either on Recipient level for all ToVs during a given period of time not shorter than one full year or on spend level for each interaction or single ToVs.

Alcon Switzerland SA does not accept partial consent or split disclosure.

In case consent was either not given by the Recipient or not documented sufficiently to prove the existence of consent, ToVs are disclosed on aggregate level only.

HCP has a right to withdraw the consent. Consent may be revoked at any time by HCO/HCP but with effect only for the future.

7. Financial Aspects

This chapter focusses on the financial aspects related to recognition methodology and business decisions associated with the collection and disclosure of the ToVs information.

Alcon Switzerland SA complies with the Novartis Group accounting principles and the financial disclosure methodology.

Alcon Switzerland SA decided to apply the following rules for ToVs payment dates based on type of ToVs: direct ToVs are disclosed based on the date the payment has been cleared via banking system. Indirect ToVs related to events such as congresses for which the dates of (in kind) expenses differ from the date(s) the event took place, are disclosed using the date of the last day of the event.

Alcon Switzerland SA discloses ToVs net amount only. If VAT cannot accurately be excluded, the full ToV amount is disclosed.

Currency treatment – foreign currency ToVs will be converted using actual exchange rates in agreement with the accounting policy of Alcon Switzerland SA. ToVs will be disclosed in the local currency of the country where the disclosing entity is located. For direct and indirect TOVs, the foreign currency is converted to the local currency of the disclosing entity based on the transaction date. For cross-border TOVs, the foreign

currency is converted to the local currency of the disclosing entity based on the average rate for the month in which the TOV occurred, using the Novartis Treasury rates.

The responsibility for disclosing and reporting ToVs is with the disclosing entity country where the Recipient's principle practice is located. In the case of payments made by Alcon Switzerland SA to an HCP or HCO, and then cross-charged to another Novartis company, or made by another Novartis company to an HCP or HCO and then cross-charged to Alcon Switzerland SA, the ToV information is provided by the original paying entity to the disclosing entity. The ToV will only be recognized once in the country where the Recipient's principle practice is located.

In case of cross-border ToVs as defined in Chapter 5.3, direct ToVs will be recognized when the payment has been cleared via the banking system and indirect ToVs will be related to the end date of the event. This information will not be available to the disclosing country immediately and so there may be cutoff recognition issues over year end. If ToV information is not provided to the Alcon Switzerland SA with adequate time to be included for disclosure in the expected reporting year, it will be disclosed in the immediate following year.

In case of multi-year contracts, ToVs are recognized based on the date the payment has been cleared via the banking system. If, for example, the HCP/HCO has entered into a contract with a term of three years and receives equal annual payments, these ToVs of an amount of one third of the total contract value would be disclosed each year in the appropriate category.
